

Shepherd Neame

Newsletter JK2508 22.08.2025

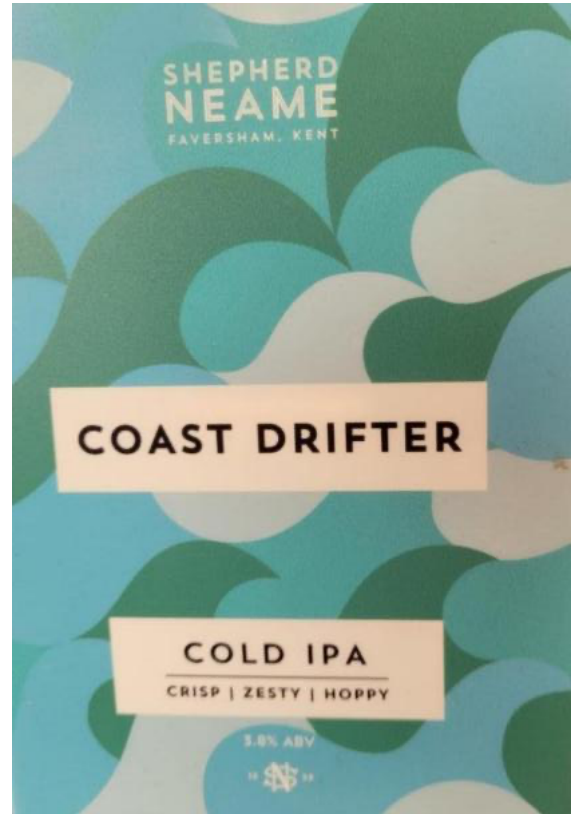

Hello fellow Suppers welcome to the latest Shepherd Neame newsletter.

The latest Cask Club beer, **Coast Drifter** 3.8%abv, is available at present. It has a delicate malt backbone with a noticeable fruity hop aroma and palate with citrus, orange notes with hints of floral and spice making this an easy drinking IPA.

The **Faversham HOP FESTIVAL** approaches on August 29th 30th 31st.

The **CAMRA stall** will be serving beers and ciders on Saturday and Sunday. As usual it will be situated near the POST OFFICE in East Street. Please drop by for a pint.

Green Hop Beer, **HOP POCKET** will be available for the Hop Festival. This being a Pale Ale 4.5%abv using Akoya hops. These are fairly new to Kent having previously been grown in Germany but the hop parentage is Zenith that was developed as part of the Wye College breeding programme. They give a slight spicy, green fruit, pepper and tea like notes.

Also coming soon, the return of **Late Red** 4.5%abv in September.

Cheers everyone, John
CAMRA's Shepherd Neame Brewery Liaison Officer.
