The Ramsgate Brewery

We're excited!

We've got 7 guest beers, all coming in between 5% and 8% ABV to well and truly blow the winter cobwebs away, alongside a cask of our very special East Kent IPA (6.5%) pouring at our Taproom for our Winter Beer Festival!

The brilliant [Sam Brothers](#) will be performing from 3pm onwards. Check out his latest EP here: <https://www.sambrothersepk.com/> and get ready for a beautiful blues-y afternoon.

We'll also have hot food on site, from Wrap A Roast , who will be serving their delicious stuffed yorkshire pudding wraps - they're a firm favourite!

### **Dry January?!**

While we could never fully endorse Dry January—giving up beer for the darkest, longest month of the year is utter madness!— We do endorse our delicious 1.2% pale ale, No. 11.

Flavoursome (we'd never dispense with taste for the sake of a low ABV!) and easy drinking, No. 11 is the perfect January curative.

Take 11% off No. 11 for the rest of January with code:
